Executive Summary

As Interim Chair of the Safeguarding Board for Northern Ireland (SBNI), I welcome the opportunity to present the ‘SBNI Child Safeguarding Learning and Development Strategy 2015-2018’. This was approved by the SBNI Education and Training Committee on 18th June 2015 and endorsed by the SBNI in September 2015.

The Learning and Development Strategy 2015-2018 is informed by the SBNI’s Strategic Plan 2013-2017 and its associated vision statement, function and values. This strategy and framework contributes to the delivery of the SBNI’s Business Plan priority three - : ‘Providing leadership and setting direction’, 3.2 (b) ‘To develop a multi-agency education and training strategy to ensure that training is delivered effectively and consistently across member agencies’.

The Education and Training Committee established a short term working group (comprising representatives from five SBNI member agencies) to produce the strategy which builds upon existing good safeguarding training, sets minimum training standards and provides a graduated framework, on four levels, for agencies to use when planning and delivering safeguarding training in Northern Ireland. It also provides an opportunity for member agencies to improve opportunities for inter-agency and multi-disciplinary training and education over the next three years.

I would like to thank all Committee Members and in particular the working group for their endeavour in producing this strategy and framework. The challenge for SBNI member agencies will be to ensure that it is implemented and its effectiveness measured against the standards set out in the framework.

The SBNI Strategy and Framework will complement the guidance in the revision of ‘Co-operating to Safeguard Children’ and should be adhered to by all SBNI member agencies and any agencies providing services to a member agency under contractual/service level agreements. The implementation and use of the strategy and framework over the next three years will be monitored as part of the SBNI’s Section 12 auditing process.

Finally, the Learning and Development Strategy 2015-2018 will be reviewed by the SBNI Education and Training Committee, as part of its annual work plan.

Mrs Glenys Johnston OBE
SBNI Interim Chair
The statutory objective of the Safeguarding Board of Northern Ireland (SBNI) is to safeguard and promote the welfare of children and young people in Northern Ireland by coordinating the work and ensuring the effectiveness of each person or body represented on the Board. Under section 3(1) of the Safeguarding Board (NI) Act 2012 the SBNI must put in place arrangements for the on-going development and review of policies and procedures relating to the training of those working with children and young people, or their families.

The objective of the Education and Training Committee is to develop a strategy for child protection and safeguarding education and training which takes account of single and multi-agency training including its planning, delivery, monitoring and evaluation. It also takes account of DHSSPS Guidance to the Safeguarding Board for Northern Ireland (December 2012, revised May 2014) which recommends a training framework with different levels of training commensurate with the level and nature of contact with children and young people.

**Aim**

To contribute to the improvement of child protection and safeguarding in NI by setting out the key minimum learning outcomes to equip staff and volunteers with the skills, knowledge and competence to promote the safety and well-being of children and young people, within the remit of their roles and responsibilities.

**Objectives**
1 “Identify opportunities for developing and enhancing multi-disciplinary/multi-agency safeguarding education and training strategies across all sectors in relation to Children’s Services”.

2 Improve the competence of staff and volunteers involved in child protection and safeguarding.

3 Provide **minimum** learning outcomes which should be achieved by staff/volunteers in any learning and development activity.

4 Identify different levels of training commensurate with the level and nature of contact with children and young people, which take account of uni and multi-agency planning, delivery, monitoring and evaluation.

5 Inform commissioners, those developing and providing education and training programmes, plus organisations and individuals to ensure that relevant, consistent and quality assured programmes are in place, accessible and delivered at the right level.

6 To promote a consistent, flexible and developmental approach to safeguarding learning and development to meet individual and organisational learning needs.

7 Builds on child safeguarding learning which should be part of all preparatory/undergraduate programmes.

**Values and principles**

It is intended that learning and development delivered under this strategy will reflect the following principles:

- Safeguarding and protecting children and young people is everyone’s business and all activity should child-centred.
- A multi-disciplinary and multi-agency approach to meeting individual and/or organisational learning and development needs is recommended where appropriate and relevant.
- Learning and development opportunities must be fit for purpose and have agreed learning outcomes as identified in this framework.
- Organisations have the responsibility to ensure that all learning and development is related to and demonstrated in practice.
- Learning and development will support improved performance in safeguarding children and young people.
- Learning and developing is not a one off event; each organisation must take responsibility to develop safeguarding children and young people learning and development strategies for their staff and volunteers, and seek to identify the most appropriate and relevant opportunities to develop staff confidence and competence in their role.
- Learning and development in safeguarding children and young people is a developmental process and requires the investment of time and resources within organisations to create a competent workforce.

**Target audience**

The strategy and framework is aimed at all SJNI member agencies, any agencies providing services to a member agency under contractual/service level agreement and is applicable and relevant to all organisations and individuals who come into contact with children and young people, and their families. It also includes those who work with adults who are parents or have contact with children and young people through the course of their work and/or service users who have contact with children.

Safeguarding and protecting children and young people is the responsibility of every individual in Northern Ireland across all disciplines and sectors.
Using the Learning and Development Framework

The framework has been designed in 4 levels which are not incremental but offer a continuum of learning and development where an individual may move between levels. For example if an individual can evidence a higher level of skills and knowledge, they may not need to undertake learning and development at a lower level of the framework. Each organisation should determine the level, developmental requirements and appropriate timescale for staff/volunteers to undertake the training. The Framework does specify some broad timescales but each organisation is responsible for determining if staff/volunteers require a certain level within a specific timeframe from date of appointment, for example. Where possible, organisations/individuals should take a multi-disciplinary/multi-agency approach to accessing learning and development.

The 4 levels include:

- **Level 1)** All staff/volunteers within the organisation
- **Level 2)** All staff/volunteers who have direct contact with:
  - Children and young people
  - Adult carers/parents and those who have regular contact with children
  - Adults known or suspected of posing a risk to children and young people
- **Level 3)** All staff/volunteers who:
  - Could potentially contribute to assessing, planning, intervening and evaluating the needs of children and parental capacity where there are safeguarding issues
  - Have a managerial or supervisory role
- **Level 4)** All staff/volunteers with specialist safeguarding roles and responsibilities.

At each level, the framework identifies:

- **Safeguarding knowledge and skills**
• Key learning outcomes
• Target audience
• Potential development opportunities
• Organisational responsibility for implementation

All learning and development activity should be influenced by:

• SBNI strategic priorities;
• Recommendations from case management reviews, inquiries and other reviews
• New and emerging trends, research and issues in safeguarding in the context of SBNI strategic priorities;
• The legal and policy context, and any regulatory requirements;
• Training needs analysis (which will reflect national, regional and local needs).
• A commitment to early intervention in children and young people’s lives.

Programme Content 2015-2018

The training strategy for the next three years should include interagency training and learning outcomes as identified in the Framework, on the following:

• Child Sexual Exploitation
• Safeguarding children with a Disability
• Mental Health and its links to safeguarding
• Domestic Abuse and its links to safeguarding
• Substance Misuse and its links to safeguarding
• Children who pose a risk to others
• E Safety for children
• Outcomes of Case Management Reviews (CMRs)
• Chronic neglect as a form of child abuse
• Bullying
• Working Together/Understanding roles and responsibilities
• Thresholds/ Risk Assessment and Analysis
• Information Sharing & Confidentiality
• Physical chastisement of children.

**Organisational responsibility**

The SBNI strategy and framework will complement guidance in Co-operating to Safeguard Children (DHSSPS, 2015) and should be adhered to. Organisations should therefore review their own internal training strategies/plans in accordance with this strategy and framework.

Organisations have a responsibility to ensure that staff and volunteers have the appropriate knowledge, skills and competence to effectively safeguard and protect children and young people and to meet the requirements of this framework.

Organisations must consider the current skill levels of individual staff/volunteers, the learning outcomes already met and using a personal development plan, identify future development needs, commensurate with their roles and responsibilities. This could be linked to the mandated professional development requirements for some staff groups.

Organisations have a responsibility to provide safeguarding induction to all new members of their organisation. The level of induction will depend on the individual's experience, skills and knowledge base and commensurate with their roles and responsibilities.

Organisations must record all induction and learning and development activity in relation to safeguarding. This information should be included as part of quality assurance and audit activity.

**Monitoring and review**
All SBNI member agencies and any agencies providing services to a member agency under contractual/service level agreements should review their own internal training strategies/plans at least every three years, and update them if required in accordance with this Strategy. Each agency/organisation should apply its own quality assurance processes. Additionally, monitoring will form part of the Section 12 auditing process required under the Safeguarding Board (NI) Act 2011 and be subject to auditing activity undertaken by the Education and Training Committee.

The SBNI Education and Training Committee will review this learning and development framework every 3 years to ensure it remains fit for purpose, and reflects any relevant developments in safeguarding practice, policy and legislation.

**Conclusion**

An appropriately trained and supported work force is central to safeguarding children and young people in Northern Ireland. Organisations must invest in training their staff/volunteers to ensure all those who come into contact with children/young people understand their contribution to safeguarding and promoting the welfare of children and young people and are competent and confident to carry out their role.
